

Modern Earth Web Design is Manitoba's leading provider of custom designed website, applications, and online marketing tools for consumers and business. Our greatest strength is the creativity and talent of our team, and we have a true commitment to customer service and strive to eclipse the ordinary in both our client care, and the work we produce.

## **Interactive Web Developer (2 positions)**

### **About the Position**

As a Web Developer you will be responsible for developing, programming and maintaining internet applications, either as stand-alone applications, or integrated into client websites. Your goal will be to deliver on client requirements, minimize bugs, complete work to both budget and deadline, and wow our clients.

Potential team members will need strong web programming experience, database design experience, and an understanding of web related concepts. Candidates will manage multiple simultaneous tasks to meet tight timelines and focus on high-quality results. You will assist in outlining technical requirements and flag issues that affect project scope. This position will involve contact with customers while sharing project solutions, gathering and clarifying project requirements, building software design specifications, and working with our team of designers, content writers and online marketing specialists.

### **Responsibilities**

- Lead or participate in projects to create, develop, and maintain client programming projects
- Integrate suitable graphical interfaces in conjunction with design team
- Provide insight and suggestions with regards to development strategies
- Obtain necessary project development info from sales and marketing team
- Assist in programmatic and website trouble shooting and client support issues

### **Technical Requirements**

- Backend Web Development Experience (e.g. ColdFusion, ASP, PHP)
- Database Design Experience (MS SQL Server Preferred)
- Experience in key web development technologies such as: HTML, JavaScript, ActionScript, XML, AJAX, and Web Services an asset

### **Competencies**

- Strong analytical and problem solving skills with the ability to multitask and switch gears quickly and effectively
- Ability to function and thrive in a team environment
- Exceptional organizational skills
- Strong written and verbal communication skills
- Ability to function in a deadline driven environment
- Demonstrated understanding of customer service principles

If you feel you can help us achieve and exceed our business goals, please apply. Modern Earth Web Design values diversity and is committed to Employment Equity. We encourage all qualified candidates to apply, however only those invited for an interview will be contacted.
